

Protect yourself and others with the help of our

# LEDIZOLV SAFETY TIPS

Wear rubber gloves.

Clean & remove all toys, rugs & belongings from the room.

Use a HEPA vacuum or equivalent to vacuum all surfaces prior to cleaning.

Work from top to the bottom starting at the farthest point from the exit of the room.

Clean & rinse all walls, window components, vents, baseboards, floors, other surfaces & crevices.

Clean & rinse a small area at a time before doing next area. Avoid re-contaminating clean areas while working.
